

Geography Our Local Park Year group 1

Subject Specific Vocabulary

geography	Geography is learning about places, people, and the world we live in.
aerial view	What something looks like from above, like a bird sees flying in the sky looking down.
map	a picture that shows where places are. It helps us find our way.
compass	a tool that shows you which way to go. It tells you directions like North, South, East, and West.
fieldwork	going outside to explore and learn about the world around them in real life.
local	near where you live or go to school.

Sticky Knowledge

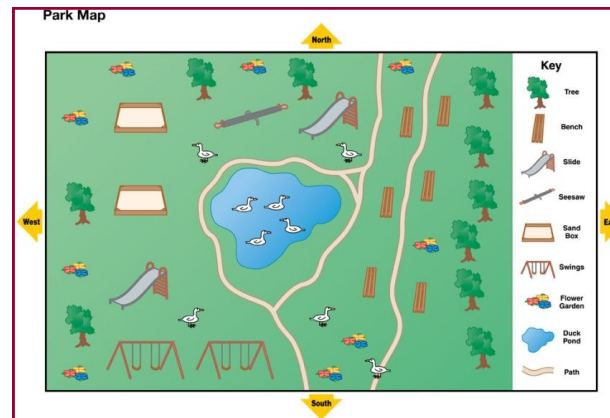

The local park to our school is Purbeck Park

The things at the park that we play on are called human features . This is because humans have put them there.

The things at the park like trees that are natural are called physical features. This is because they would still be there without humans.

When we draw a map it shows what the park looks like from above.

A compass shows us which direction is north, east, south and west.

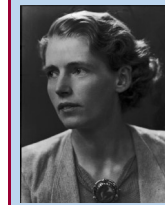

Skills

- I can use fieldwork to answer questions.
- I can use directions to describe a route.
- I can name the fours main points on a compass.
- I can draw a simple map.
- I can put information in a chart.

Key Figure/s

Lady Marjory Allen (1897–1976)

Campaigned for local councils to build better play areas so all children had somewhere safe to play.

Aspirations

- Designer—A person who decides what the play area looks like.
- Engineer—A person who makes sure that the equipment is safe and strong.
- Cartographer—A person who makes maps.

Key Dates

September 2014

The play equipment was built in Purbeck Park.
