Sticky Knowledge

The UK is made of 4 countries: England, Northern Ireland, Scotland and Wales. The capital cities are London, Belfast, Edinburgh and Cardiff.

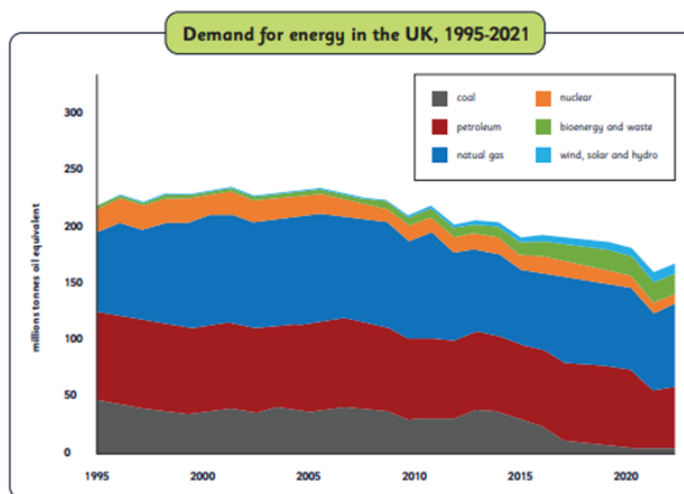

In the UK, economic activity can be split in to three different sectors; primary, secondary and tertiary.

Primary sector extracts and uses the natural resources of the Earth.

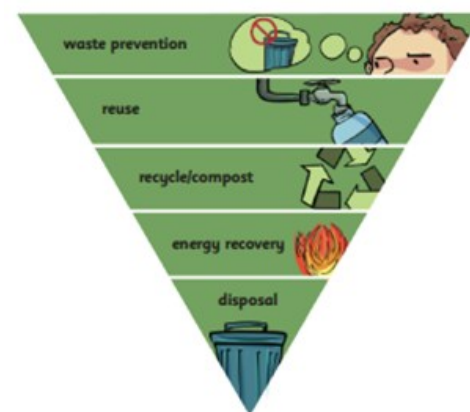

Secondary sector manufactures goods using the raw materials provided by the primary sector.

Tertiary sector provides services to consumers and other sectors of industries.

Energy can be generated and captured from different sources—renewable and non-renewable.

Waste hierarchy negatives of landfill

Skills

I can name the key geographical features of the UK.

I can say how each economic sector impacts the UK's economy.

I can name the three main economic sectors

I can name some economic activities in the UK.

Aspirations

Farmer

Fisherman

Engineer

Local councillor
