

Geography Fieldwork-UK Year 3

Subject Specific Vocabulary

Region	An area of a country.
County	A smaller area within a region.
Settlement	A place where people live.
Compass	A tool that shows direction (north, south, east, west).
Grid Reference	Numbers used to find a place on a map.
Topography	The shape and features of the land.

Sticky Knowledge

The United Kingdom is made up of four countries.

England is divided into regions and counties.

Settlements can be villages, towns or cities.

The UK has different human and physical features.

Maps help us to find places and understand the world

Key Dates

1801 – The United Kingdom was formed (union of countries).

1936 – The Ordnance Survey began making detailed maps of the UK.

Today – We use maps, atlases and digital tools to study the UK.

Aspirations

Geographer

Cartographer (map maker)

Surveyor

Town planner

Environmental scientist

Skills

I can recall the four countries of the United Kingdom and understand that England is divided into regions.

I can name and explain the differences between different types of settlements, and I know that England is divided into counties

I can name human features commonly found in different settlements and give examples of key landmarks across the UK.

I can name physical features in the UK and give examples.

I can use a compass, key and symbols to read and describe features on a map.
